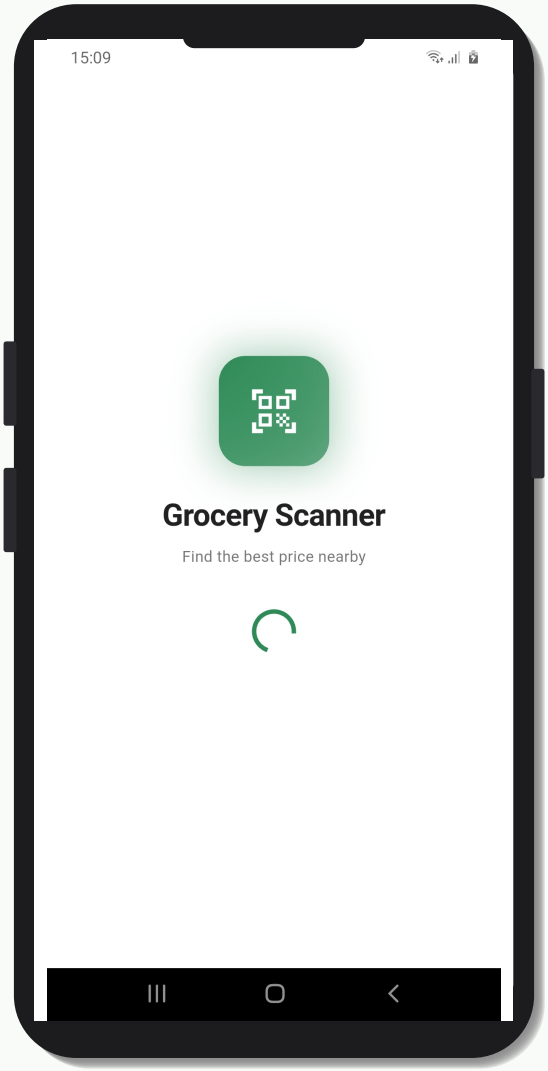
1 Splash Screen

App Launch

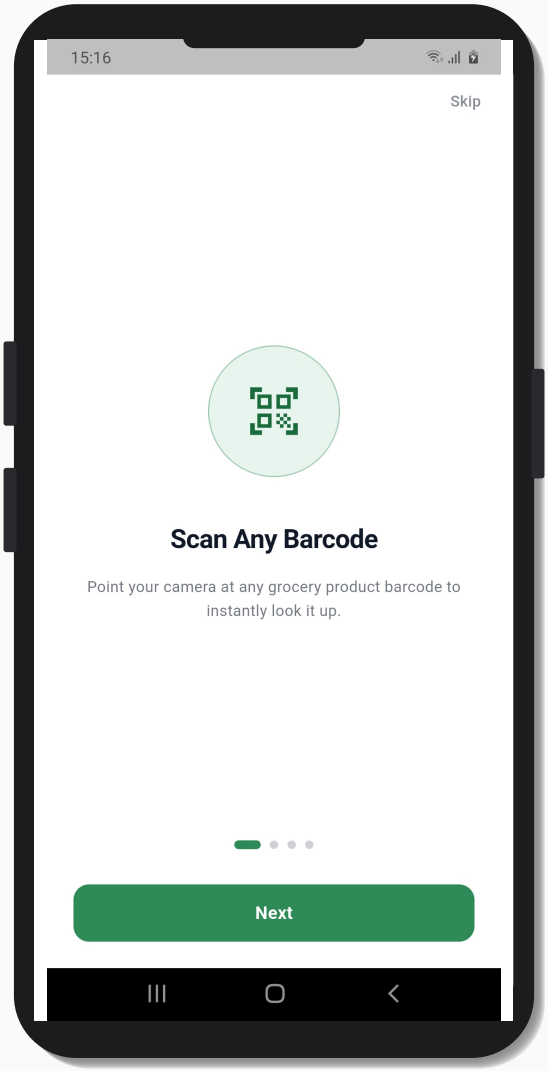


App Launch

Users are greeted with the Grocery Scanner logo and a smooth loading animation before entering the app.

2 Onboarding · Step 1

Scan Any Barcode



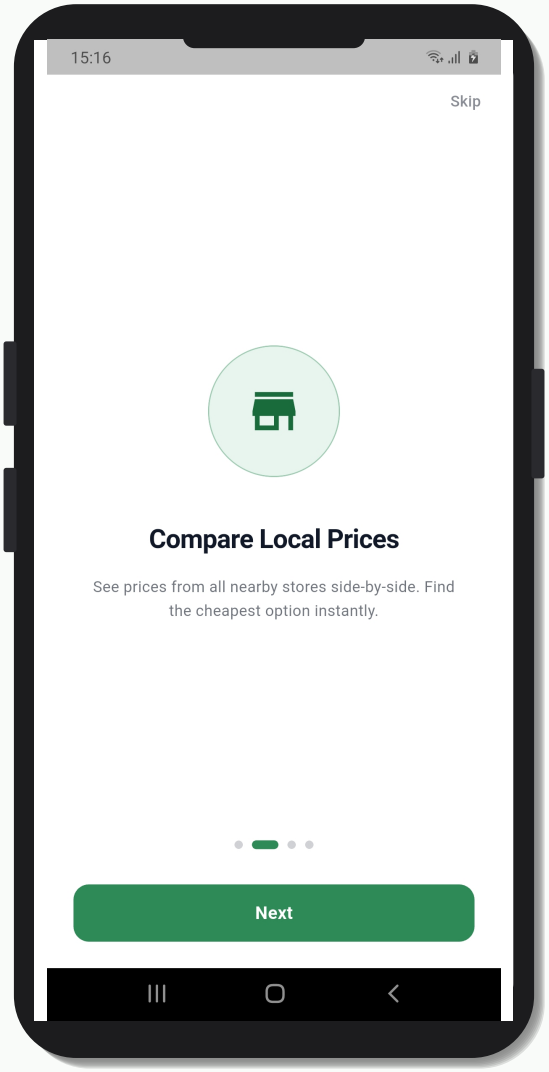
Scan Any Barcode

Point your camera at any grocery product barcode to instantly look it up in our database.

Onboarding · Step 2

3

Compare Local Prices

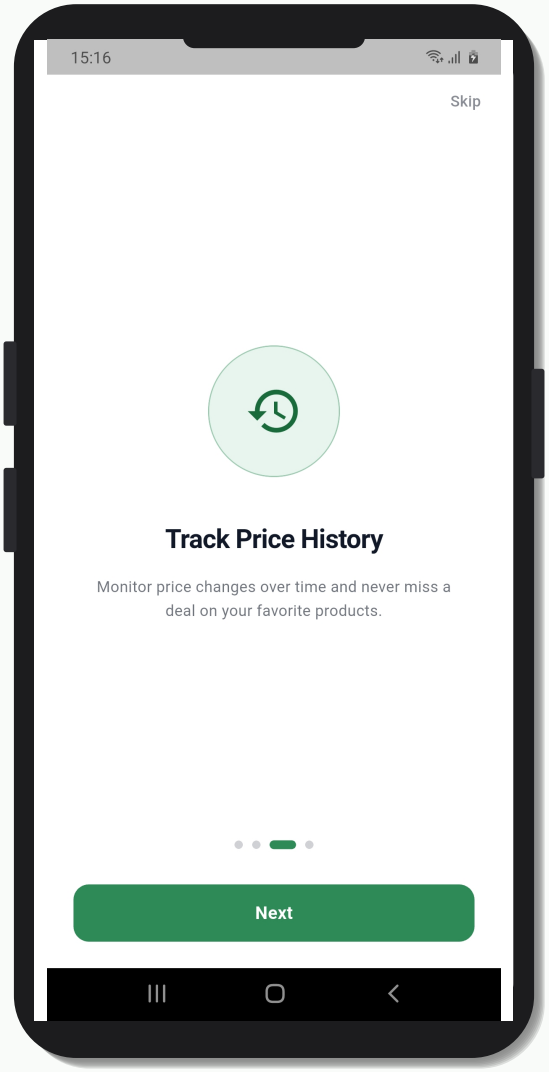


Compare Local Prices

See prices from all nearby stores side-by-side. Find the cheapest option instantly.

Onboarding · Step 3

Track Price History

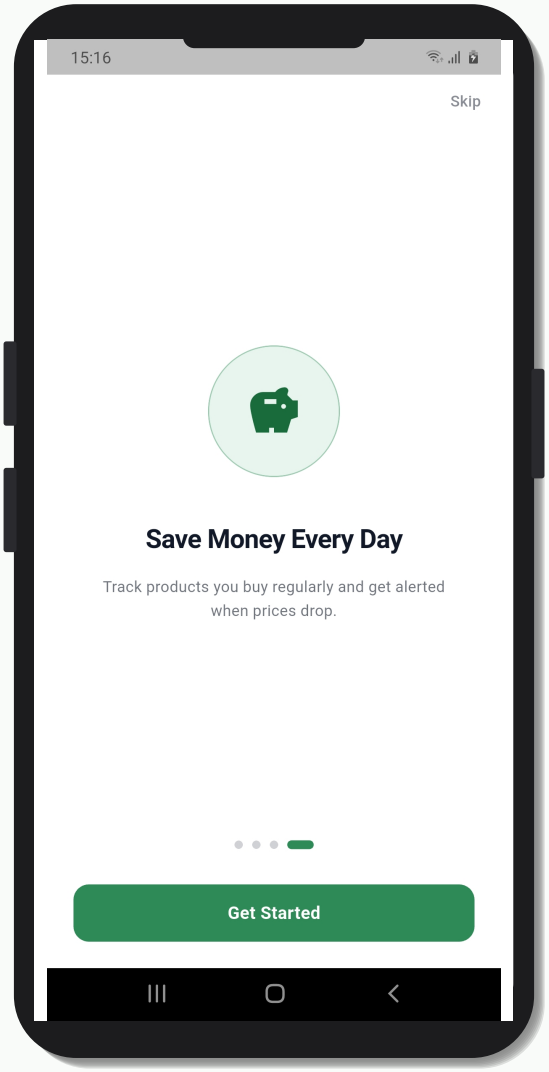


Track Price History

Monitor price changes over time and never miss a deal on your favorite products.

Onboarding · Step 4

Save Money Every Day

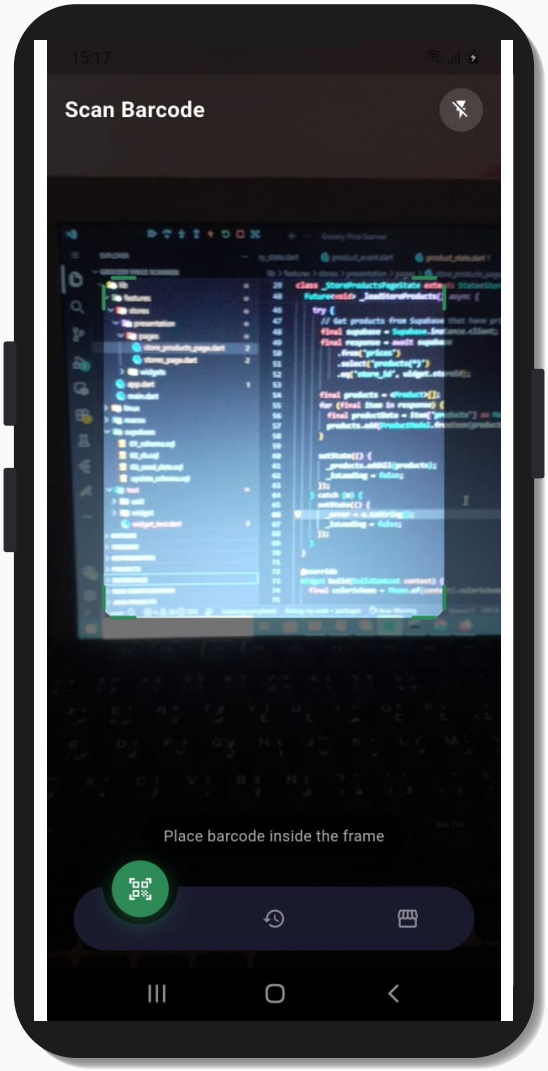


Save Money Every Day

Track products you buy regularly and get alerted when prices drop.

6 Home Screen

Barcode Scanner

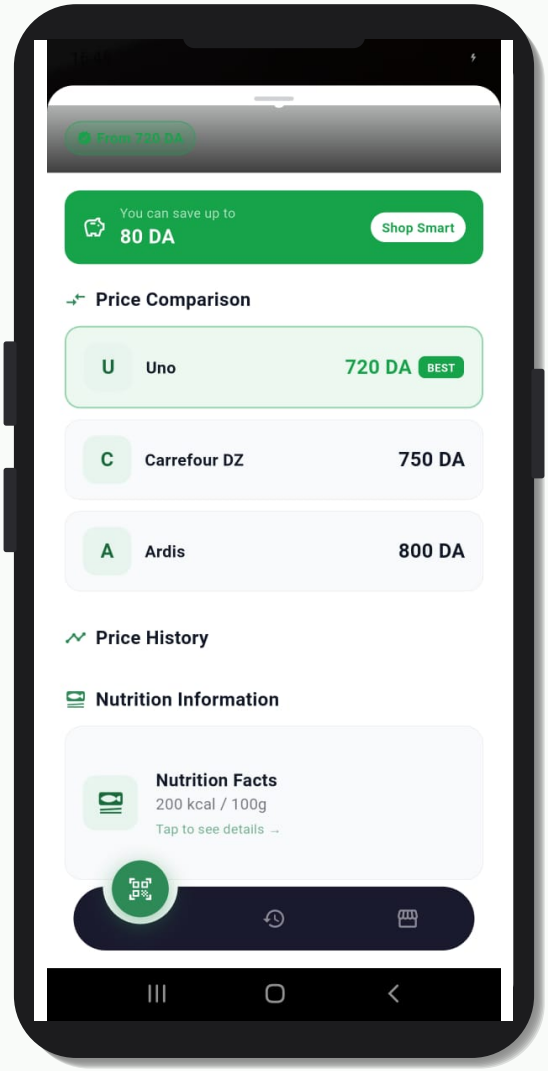


Barcode Scanner

The main scanner view uses the device camera with ML Kit to detect barcodes in real-time. A flash toggle is available for low-light conditions.

7 Scan Result

Price Comparison Sheet

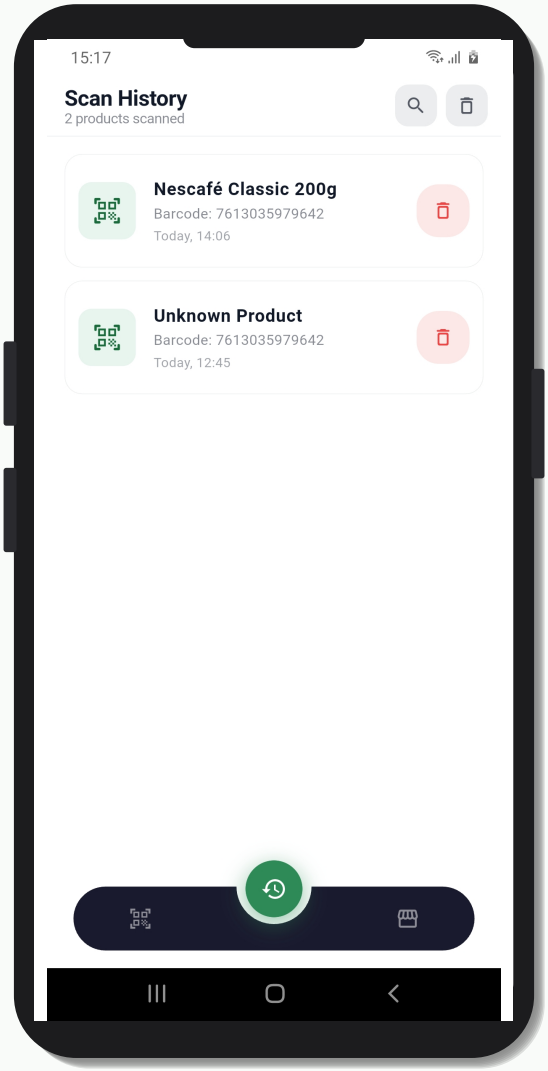


Price Comparison Sheet

After scanning, a bottom sheet reveals real-time price comparison across stores, highlights the best deal, shows potential savings, and includes nutrition info.

8 Scan History

Previously Scanned Products

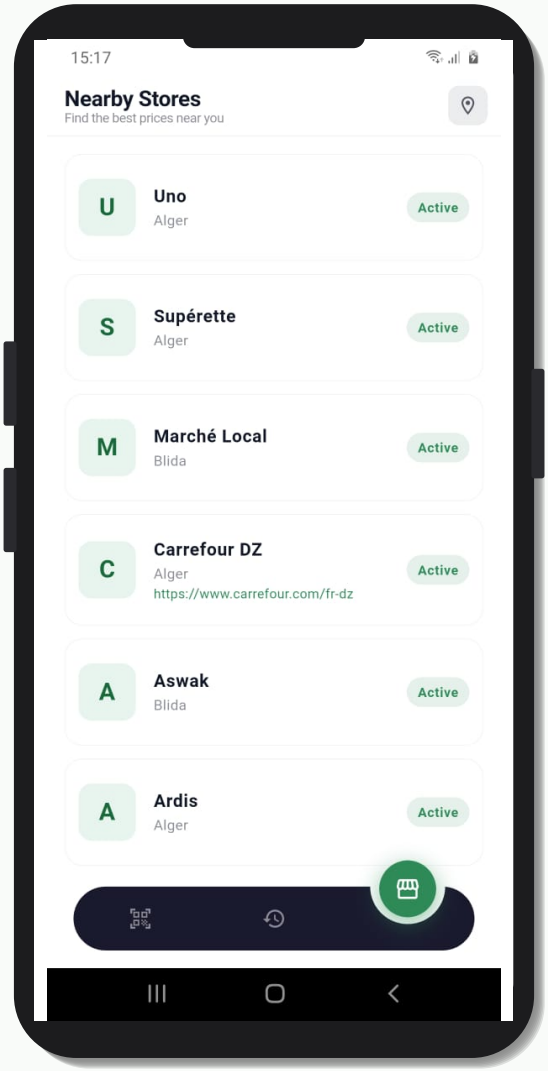


Previously Scanned Products

A chronological list of all scanned items with barcode and timestamp. Individual entries can be searched or deleted.

9 Nearby Stores

Store Directory

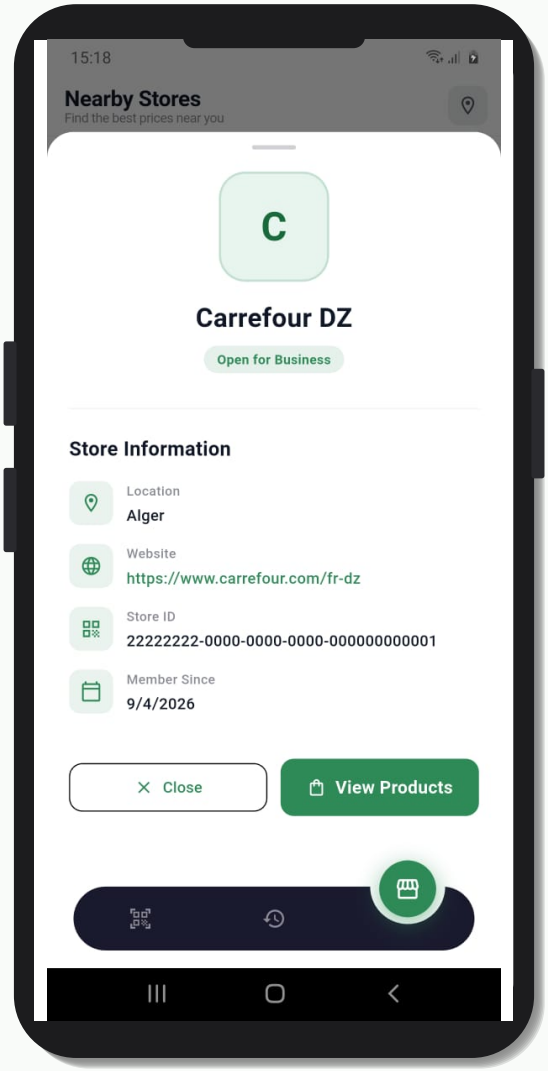


Store Directory

Browse all active stores in your area. Each entry shows the store name, city, and a live Active badge. Tap any store to see its details.

Store Details

Store Info Bottom Sheet

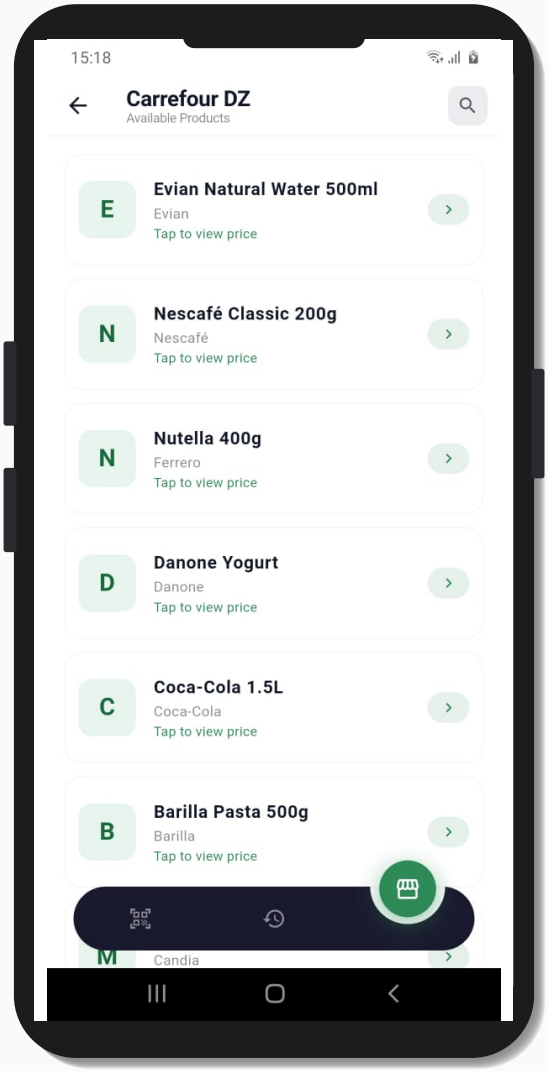


Store Info Bottom Sheet

Tapping a store opens a bottom sheet with full information: location, website, unique Store ID, and membership date — plus a direct link to View Products.

Store Products

Available Products Page



Available Products Page

A paginated list of all products available at the selected store. Each item shows brand, product name, and a Tap to view price action.
